

TIG Solutions Limited

Health Safety and Environmental Policy

TIG Solutions Limited is committed to conduct its business in such a manner that it protects the Safety and Health of its employees, others working on its behalf, others involved in its operations, its clients and the public and comply with any statutory and regulatory requirements.

TIG Solutions Limited is also committed to conduct its business in a manner that is compatible with the balanced environmental needs in which it operates. Sufficient resources will be available in order to meet these requirements.

To meet these commitments TIG Solutions Limited will set itself standards that at least meet both the letter and spirit of the law. In addition, the responsibilities of individual employees and safety committees for Health and Safety management will be recorded.

TIG Solutions Limited's approach to Health and Safety is based on effective Health and Safety Management, which facilitates the identification of and understanding of risks and the means to control them.

For this reason, TIG Solutions Limited will continuously review its system of Health, Safety and environmental management through regular documented meetings in order to meet the policy expectations of TIG Solutions Limited. Risk assessments will be conducted and the findings acted upon.

All accidents and incidents are preventable; therefore effective control is to focus on the cause(s) of incidents and not their results.

For the above reason, the full reporting, measurement and investigation of all incidents including near misses is the major factor in TIG Solutions Limited's approach to successful Safety Management.

Although Line Management accepts the prime responsibility for Health and Safety Management TIG Solutions Limited will actively involve all employees in contributing to Safety Management and in identifying potential hazards-and-development of measures to minimize the risk arising from these hazards.

TIG Solutions Limited insists that all employees accept their individual and organizational responsibilities in order to ensure and maintain a Safe Environment.

The objective of applying these principles is to continuously improve the safety performance of TIG Solutions Limited.

This policy statement is understood and followed by all personnel employed by TIG Solutions Limited.
